

NORD® Claim Your Care: Increasing knowledge of rare disease health care coverage

About The Program

The National Organization for Rare Disorders (NORD®) Claim Your Care program is designed to enhance health coverage literacy. It will help rare disease Patient Advocacy Groups (PAGs), patients, and caregivers better understand and navigate health insurance and coverage-related challenges.

Navigating health insurance can be confusing, but the NORD® Claim Your Care program is there to make it easier! They have developed a variety of tools and resources designed to provide patients and caregivers in the United States with the information they need to better understand their health care coverage options.

Link to the ClaimYourCare Page: <https://www.claimyourcare.org/>

The materials on this site were specifically designed to educate individuals and families living with rare disease on health coverage basics as well as address the challenges they may encounter in utilizing their health plan(s).

For more specific assistance, families of individuals with KAT6 can write: informationservices@rarediseases.org or call (800) 469-0283. Please note that the team can speak to basics; they are not insurance experts on each specific carrier.
